ELS AMETLLERS

Reviving the Mediterranean essence between Cala d'Or and S'Horta

This project was born with the purpose of transforming a home located between Cala d'Or and S'Horta, Mallorca, into a space that embodies elegance, warmth and the true Mediterranean spirit.

Set in a privileged enclave where the serenity of the countryside meets the proximity of the sea, the design proposal seeks to connect with the island's essence and captivate everyone who steps inside. Natural light, the soft tones inspired by the sea and the Mallorcan landscape, and carefully selected furniture that blends functionality with sophistication come together to create harmonious, welcoming spaces.

Every detail has been thoughtfully curated to evoke comfort, authenticity and a sense of belonging, turning the house into a place ready to be lived in and enjoyed from the very first moment.

More than a design project, this is an invitation to experience the Mediterranean lifestyle at its finest.
